## About Us

Prudent Equity is an asset management company that has been serving family offices, HNIs and retail investors since 2012.

Our professionally certified team brings with it expertise and experience from various investment backgrounds. Our Chief Investing Officer brings with him 27 years of full-time investing experience.

We believe that an intensive & elaborate research effort can generate exceptional investment returns. We buy those securities that meet our strict proprietary investment criteria.

## Investment Philosophy

Prudent Equity follows a bottom-up value investing approach to identify companies trading below their intrinsic value that provides significant upside potential with limited downside risk. Although our core principle remains towards capital protection, our strategy has proved to deliver outsized gains. Our strategy places focus on the unique strengths of the company, such as its overall financial strength, management, and its capital allocation policies.

## Investment Criteria

**Value Oriented Growth Companies:** Companies growing at high rates.

**Corporate Governance:** Forensic Accounting, Capital Allocation, Treating minority at par.

**Margin Of Safety:** Buying at a significant discount to estimated intrinsic value.

**Optimal Capital Structure:** Highly leveraged companies, frequent equity dilution etc. are some of the traits which are avoided.

## Why we are different

- To us, long term is a series of several short terms.
- Focus towards multiplying capital not specifically multibagger stocks.
- Our proprietary method to calculate the intrinsic value of a well-studied stock has proven to be highly accurate over several decades of practice.

## About the Chief Investment Officer

"Our effort is to deliver above average investment returns for our investors.

We believe that our disciplined and opportunistic investment approach offers the most sensible and rational approach to building wealth.

The goal is to buy those stocks that increases capital at high rates over long periods while employing less risk"
