INVESTMENT PHILOSOPHY

Prudent Equity follows a bottom-up value investing approach to identify companies trading below their intrinsic value that provides significant upside potential with limited downside risk. Although our core principle remains towards capital protection, our strategy has proved to deliver outsized gains.

Our strategy places focus on the unique strengths of the company, such as its overall financial strength, management, and its capital allocation policies.

INVESTMENT CRITERIA

VALUE ORIENTED GROWTH COMPANIES

Companies growing at high rates.

MARGIN OF SAFETY

Buying at a significant discount to estimated intrinsic value.

CORPORATE GOVERNANCE

Forensic Accounting, Capital Allocation, Treating minority at par.

OPTIMAL CAPITAL STRUCTURE

Highly leveraged companies, frequent equity dilution etc. are some of the traits which are avoided.

WHY WE ARE DIFFERENT

- ✓ To us, long term is a series of several short terms.
- ✓ Focus towards multiplying capital not specifically multibagger stocks.
- ✓ Our proprietary method to calculate the intrinsic value of a well studied stock has proven to be highly accurate over several decades of practice.

SERVING CLIENTS ACROSS THE GLOBE

OUR STRATEGY

VALUE INVESTING IS NOT BUYING AT LOW P/E. INSTEAD, BUYING AT A DISCOUNT TO THE INTRINSIC VALUE
